

# **Wildlife Computing Mammals – Update 15 January 2014**

## **Introduction**

The mammals database follows the taxonomy of Wilson and Reeder Third Edition published 2005. All the species included in that work are in this database, all the sub-species listed on the Wilson and Reader website are included (actual species included depend on your version of Wildlife Recorder/Lister).

The mammals database now contains area distribution information so that checklists can be displayed for the same countries/states etc as in the Birds database. Mammals distribution is not nearly as well understood as that of Birds so the information about the exact range of a species in large countries such as China may not be as accurate as we would have liked. Distribution notes text is provided for full species in this release. It should be noted that in most cases the actual distribution of sub-species is not well understood in those cases the distribution for the sub-species will be the same as that of its parent species and no distribution text is available for the subspecies.

This database can be used to update any of your own databases created with older versions of the mammals database.

## **Changes since Last Update (14)**

- Distribution text has been added for species.
- All 6903 subspecies listed on the Wilson & Reeder website have been added to the database.

## New Species/Subspecies

Name
Indonesian Short-nosed Fruit Bat ( <i>Cynopterus titthaecheilus</i> )
Montane Akodont ( <i>Akodon montensis</i> )

## Taxonomy Sequence Changes

Order	
Rodentia	Moved after Primates

## Order Changes

Family	Moved From	Moved to
Elephantidae	Sirenia	Proboscidea

## Family Changes

Genus/Species	Moved From	Moved to
Pen-tailed Treeshrew ( <i>Ptilocercus lowii</i> )	<i>Tupaia</i> idae	<i>Ptilocercus</i> idae
<i>Lepilemur</i>	<i>Lemur</i> idae	<i>Lepilemur</i> idae
<i>Euoticus</i>	<i>Loris</i> idae	<i>Galago</i> idae
<i>Galago</i>	“	“
<i>Otolemur</i>	“	“
<i>Aotus</i>	<i>Cebus</i> idae	<i>Aotus</i> idae
<i>Callicebus</i>	“	<i>Pithecia</i> idae
<i>Cacajao</i>	“	“
<i>Chiropotes</i>	“	“
<i>Pithecia</i>	“	“
<i>Alouatta</i>	“	<i>Atelus</i> idae
<i>Ateles</i>	“	“
<i>Brachyteles</i>	“	“
<i>Lagothrix</i>	“	“
<i>Oreonax</i>	“	“
<i>Cryptoprocta</i>	<i>Viverris</i> idae	<i>Eupleris</i> idae
<i>Eupleres</i>	“	“
<i>Fossa</i>	“	“
<i>Galidia</i>	“	“
<i>Galidictis</i>	“	“
<i>Mungotictis</i>	“	“
<i>Salanoia</i>	“	“
<i>Nandinia</i>	“	<i>Nandinius</i> idae
<i>Atilax</i>	“	<i>Herpestis</i> idae

<i>Bdeogale</i>	“	“
<i>Crossarchus</i>	“	“
<i>Cynictis</i>	“	“
<i>Dologale</i>	“	“
<i>Galerella</i>	“	“
<i>Helogale</i>	“	“
<i>Herpestes</i>	“	“
<i>Ichneumia</i>	“	“
<i>Liberiictis</i>	“	“
<i>Mungos</i>	“	“
<i>Paracynictis</i>	“	“
<i>Rhynchogale</i>	“	“
<i>Suricata</i>	“	“
<i>Conepatus</i>	“	<i>Mephitidae</i>
<i>Mephitis</i>	“	“
<i>Mydaus</i>	“	“
<i>Spilogale</i>	“	“
<i>Inia</i>	<i>Platanistidae</i>	<i>Iniidae</i>
<i>Lipotes</i>	“	“
<i>Pontoporia</i>	“	“
<i>Clidomys</i>	<i>Capromyidae</i>	<i>Heptaxodontidae</i>
<i>Amblyrhiza</i>	“	“
<i>Elasmodontomys</i>	“	“
<i>Quemisia</i>	“	“

## Scientific name changes

Old Scientific Name	New Scientific Name
Mindanao Flying Squirrel ( <i>Hylopetes mindanensis</i> )	<i>Dasyurus spartacus</i>
Pungent Pipistrelle ( <i>Pipistrellus mordax</i> )	<i>Falsistrellus mordax</i>
Peters's Pipistrelle ( <i>Pipistrellus petersi</i> )	<i>Falsistrellus petersi</i>
Brown-tailed Mongoose ( <i>Salanoia unicolor</i> )	<i>Salanoia concolor</i>
Collared Peccary ( <i>Tayassu tajacu</i> )	<i>Pecari tajacu</i>
Fennec Fox ( <i>Fennecus zerda</i> )	<i>Vulpes zerda</i>
Grant's Gazelle ( <i>Gazella granti</i> )	<i>Nanger granti</i>
Peruvian Ichthyomyine ( <i>Daptomys peruviansis</i> )	<i>Neusticomys peruviansis</i>
